SUMMARY

Software Developer Intern at Difmo Technologies with expertise in frontend technologies like ReactJS, Next.js, and Tailwind CSS, as well as backend tools such as Firebase, Google Cloud, and EmailJS. Set to graduate with a B.Tech in Computer Science and Engineering, specializing in scalable application design and cloud-based solutions. Committed to delivering user-centric, high-quality software and advancing technical expertise.

EXPERIENCE

Difmo Technologies Apr. 2024 – Present
Full-Stack Developer *Lucknow, IN*

- Experienced in developing and maintaining responsive web and mobile applications. Skilled in React.js and Next.js for web development, with modern UI components built using Tailwind CSS. Proficient in integrating backend solutions with Firebase and Google Cloud for real-time data handling. Experienced in Flutter and Dart for building cross-platform mobile applications, with expertise in creating intuitive UIs and optimizing performance across iOS and Android.

Difmo Technologies Nov. 2023 – Apr. 2024
Full-Stack Developer(Intern) *Lucknow, IN*

- Contributed to the development and maintenance of responsive web applications using React.js and Next.js, with modern UI components crafted in Tailwind CSS. Integrated backend solutions with Firebase and Google Cloud for scalable, real-time data handling, and automated workflows with EmailJS.

EDUCATION

AIMT Lucknow, IN
Bachelor of Technology , CSE *Oct. 2021 – Jun. 2024*

Shri Vishwanath college of Polytechnic Sultanpur, IN
Polytechnic, CSE *Jun. 2019 – Sep. 2021*

PROJECTS

Difwa | *Flutter, Firebase, GetX* Dec 2024 – Present

- Developed and deployed the Difwa mobile application using Flutter and Dart, ensuring cross-platform support for both iOS and Android.
- Integrated Firebase for real-time data synchronization and cloud storage, utilizing Firebase Firestore and Firebase Authentication to manage user data and enable secure logins.
- Implemented GetX for state management, ensuring a reactive, efficient, and scalable solution for the app's UI and state transitions.
- Optimized app performance, ensuring smooth navigation, fast load times, and a user-friendly experience across different devices and screen sizes.

NextZeni Website | *Nextjs, CSS, EmailJs* Oct 2024 – Feb 2025

- Developed and deployed the Nextzeni website for online coaching and communication classes using Next.js, CSS, and EmailJS, enhancing digital accessibility and user engagement.
- Implemented responsive design and automated email functionalities, streamlining class registrations and inquiries, contributing to a seamless user experience and increased client interaction.

AjayDhawan Portfolio | *Reactjs, TailwindCSS, EmailJs* May. 2024 – Sep 2024

- Developed a full-stack web application using with reactjs and Tailwind CSS, ensuring a fast, responsive, and visually appealing user experience across all devices.
- Integrated EmailJS to provide smooth email functionality, allowing users to contact or receive notifications without the need for backend email configurations.

Personal Portfolio | *ReactJs, Tailwind CSS, Firebase, Google Cloud* Nov 2023 – Dec 2023

- Utilized ReactJS and Tailwind CSS to create an interactive, mobile-first design with fast load times and a visually appealing user experience.
- Integrated Firebase for authentication and real-time data storage, while leveraging Google Cloud for scalable hosting and backend services to manage and store user data.
- Incorporated EmailJS to streamline messaging functionality, allowing users to easily contact through a custom email system without backend email configurations.

Technical Skills

Frameworks: ReactJs, NodeJs, NextJs
Cloud Services: Firebase, Google Cloud, EmailJs
Architectures: MVVM
Developer Tools: Git, Google Cloud Platform
IDEs: VS Code
Languages: HTML, CSS, Tailwind CSS
Additional Skill: Python(Basic), WordPress
